

Benefits of Using Cloud-based Repositories

Yuri Khechoyan

Easy Access

- Have you ever had a malfunctioning USB flash drive or internal hard drive?
- Have you ever lost a USB flash drive that held important and valuable data?

TIP: You can even set up a Private Repository and use it as your personal mini cloud hard drive

Collaboration Made Easy

○ This is **Good!**

 **perryl** 10:53 PM
Same error on line 67 of AccountCreation

 **ykhechoyan** 🌱 11:01 PM
@wilkinsj: There are over 180 instances of the UserDetails child in the DB (edited)

 **GitHub** APP 11:03 PM
[android-app-tian:master] 1 new commit by Khechoyan-Yuri:
| **bc40dce** Fixed error with app icon in Manifest.xml - Khechoyan-Yuri
[android-app-tian:master] 2 new commits by Jessie-Wilkins:
| **39cd162** Partially restructured database children. - Jessie-Wilkins
| **83c47b9** Merge branch 'master' of <https://github.com/Khechoyan-Yuri/android-app-tian> - Jessie-Wilkins

 **GitHub** APP 11:10 PM
[android-app-tian:master] 2 new commits by Khechoyan-Yuri:
| **609a99b** Added 'Internet permission' to Manifest.xml - Khechoyan-Yuri
| **f42b04d** Merge branch 'master' of <https://github.com/Khechoyan-Yuri/android-app-tian> - Khechoyan-Yuri

 **wilkinsj** 🌱 11:16 PM
Well, we're getting through it.

○ This is **UNACCEPTABLE!**

Mon 10/23/2017, 9:44 PM

Download Save to OneDrive - Fontbonne University

Calling function in main:
int sumArr = calc_sum_array(newArray, sz, &splitArray, split_point, newSz); //call calc sum fnt

Function definition:
int* calc_sum_array(int *arr1[], int sz1, int *arr2[], int sz2, int &newSz){
if(sz1 > sz2){
int *lrgArr = new int[sz1]; //creates array the size of larger array
for(int i=0; i<sz1; i++){
*(lrgArr+i) = *(arr1+i); //fills array with larger arrays elements
}
for(int i=0; i<sz1; i++){
lrgArr[i] = lrgArr[i] + *arr2[i]; //adds elems in smaller array to larger array
}
return lrgArr;
}

TIP: For increased productivity & collaboration, connect the Cloud-based Repository to Slack!

Source Code Time Machine

- Are you **REALLY** going to remember what code you pushed over 2 years ago? The Cloud-based Repository will!

Added Java & XML files for 'Make Request' button - need modification

master

Immediate Danger? No Problem!

- Have you ever seen the scenes either on a TV Show or in a Movie where a person is in immediate danger but needs to upload some files to save the world? NOW YOU CAN TOO!*

In case of fire

-  1. `git commit`
-  2. `git push`
-  3. exit building
